

Audio Engineer

Job Description

Position Summary

The Audio Engineer is responsible for delivering high-quality sound during worship services and live events through mixing, equipment setup, and technical support. The ideal candidate is experienced in live sound, detail-oriented, and dependable under pressure. They bring a collaborative attitude, a strong work ethic, and a passion for using their technical skills to support the church's mission through its weekly services, events, and activities. This position reports to the Lead Audio Engineer.

Who We Are

We strive for excellence in every area of ministry.

World Outreach Church is an interdenominational congregation of over 15,000 congregants in Murfreesboro, Tennessee. It began over 40 years ago with less than 30 people and has been under the leadership of Pastor Allen Jackson since 1989. Through our in-person services, gatherings, and events, as well as the use of online streaming, television, radio, podcasts, and other resources; our mission is to help people become more fully devoted followers of Jesus Christ.
